LOGISTIC SHEET

Softline®

In order to facilitate the preparation of orders, the sending of goods to depots, their storage or the delivery of goods on site, Softline boards are packed by 5 boards in different packaging lengths.

— WOOD BOARDS

Packaging *: Sold by full pallets.

Species	Package length	Package width	Package height	Lengths contained in package					No package on pallet	M1/ package	m ² / package	m ² / Pallet	Total dimensions pallet included
Padauk-Ipe-Cumaru Blondo - Merbau	1600	100	100	1600	800+800	1600	1600	1600	66	8	0.8	52.80	1100x1600x780mm
	2000	100	100	2000	800+1200	2000	2000	2000	66	10	1	66.00	1100x2000x780mm

(*) theoretical packaging, can be modified at any time depending on production.

The lengths contained in the packages may vary depending on the production.

Some species even have fixed lengths.

As the lengths are cut at right angles (90°) with a tongue and groove system and in multiples of 400mm, the length of the boards does not matter for the installation of the deck with as recommended by VETEDY.

Packaging : Strapped and filmed boards in bundles*. Sold in full pallets. Each package has a label containing the general characteristics of the product plus a barcode and a QR code leading to the installation instructions of the product.

PALLETS

LABELS

Storage : Dry and clean place, ventilated and protected from light. Inappropriate storage can lead to a dimensional variation of the boards as well as movement or a change in color. After opening a package and returning to stock, the boards must be strapped together.

— **Softline® FIXATION CLIPS**

Conditioning : 250pcs per box (theoretical 10m²) (107,6 sqft) - sold by the complete boxes. Pallets of 108 boxes.

Packaging : Cardboard boxes with the general characteristics of the content printed on it.

Storage : Dry and clean place
