(\* ) theoretical packaging, can be modified at any time depending on the production.

The lengths contained in the packages may vary depending on the production.

Some species even have fixed lengths.

As the lengths are cut at right angles (90°) with a tongue and groove system and in multiples of 462.5 or 500mm, the length of the boards does not matter for the installation of deck with as recommended by VETEDY.

**Packaging :** Strapped and filmed boards in bundles\*. Sold in full pallets. Each package has a label containing the general characteristics of the product plus a barcode and a QR code leading to the installation instructions of the product.

**PALLETS**

**LABELS**

**Storage :** Dry and clean place, ventilated and protected from light. Innapropriate storage can lead to a dimensional variation of the boards as well as movement or a change in color. After opening a package and returning to stock, the boards must be strapped together.

## ➤ ALUMINIUM JOISTS & FIXATION CLIPS *Technideck*®

### **Packaging :**

- Alu. joists clips 100 : 23 clips per joists of 2400mm - Pallets of 204pcs
